

maf::math::Vector::
transposed

```
graph LR; A[maf::math::Vector::transposed] --> B[maf::math::Vector::size]; A --> C[maf::math::Vector::Vector];
```

A diagram illustrating a tree structure. A gray rectangular node on the left contains the text 'maf::math::Vector::transposed'. Two blue arrows originate from the right side of this node. The top arrow points to a white rectangular node containing 'maf::math::Vector::size'. The bottom arrow points to a white rectangular node containing 'maf::math::Vector::Vector'.
