

ExtendedInt::operator+

ExtendedInt::operator-

ExtendedInt::get_value

```
graph LR; A[ExtendedInt::operator+] --> C[ExtendedInt::get_value]; B[ExtendedInt::operator-] --> C;
```

The diagram illustrates a relationship between two operators and a common method. On the left, there are two white rectangular boxes with black borders. The top box contains the text 'ExtendedInt::operator+' and the bottom box contains 'ExtendedInt::operator-'. On the right, there is a gray rectangular box with a black border containing the text 'ExtendedInt::get_value'. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box, indicating that both operators utilize the 'get_value' method.
